THE ARMY OF CRANKS.

Chief Bigelow Bothered With People Interested in the Park.

WHO HAVE VARIOUS AXESTO GRIND

Control of the Ground Confined to the Public Works Department.

THE MAYOR SIGNS THE RESOLUTION

The park question has raised a hornets nest around the head of Chief Bigelow, of the Department of Public Works, in the shape of people who want special privileges, for which they are willing to pay. First are the advertising scheme men who want chances to erect fountains, which will not alone assuage the thirst, but also inform the public that Bunkom's Bene Bitters are an excellent application for the complexion. The amount of fence advertising which is asked for would cover miles of superficial line work, and in fact the park as an advertising center would pay for roofing it in with iron and glass, and making a conservatory of the whole arrangement, if one-half the applications for advertising space were granted or their promises redeemed.

Then comes the wagonette man who would drive visitors all around the park for a quarter, and was willing to pay for the privilege as little as possible. The pony track man was next in the livery business, and he would let children gallop about 100 yards for a dime, if he could get the track for a very slight consideration, or he allowed to slight the consideration. The merry-go-round man insisted upon having a chance TO CULTIVATE VERTIGO

in youthful brains without any return to the city, except that afforded by the reports of the Health Bureau, and the projectors of swings simply made by their arguments a pendulum motion in Chief Bigelow's ideas which resulted in a headache.

As for the restaurant privileges and the probable finding of mineral wells upon the ground they are simply innumerable. The

mineral spring can be made on short notice by three laborers, and a combination of dis-carded skeletons of bustles, a natural flow of water and a lew pounds of Glauber's salts, so the bids for mineral well privileges are very high. Another difficulty arises out of the estab-

lishment of the parks, a question from a de-bating society, from which a delegate saw Chief Bigelow yesterday to get pointers on who would have to gay for the parks. BIGELOW FOUGHT SHY. The question raised was whether the necessary taxes should be placed upon prop erty, be a personal tax or a sort of general assessment. Mr. Bigelow declined being the referee in the discussion, but thought the East End Club which took up the sub-ject ought to define the lines between the

affirmative and the negative of the discus-Another point, with regard to the regula-tion and government of the parks, which was touched upon yesterday in THE DIS-PATCH, the election of a park commissioner on the suggestion of a citizen, was covered by a statement from Chief Bigelow yesterday that the legislation had so far provided for the park projects being in charge of the Department of Public Works,

where it would probably remain, at least for some time. As for the goological garden suggestion Mr. Bigelow was heartily in favor of it, it it could be shown to cost the city nothing. He laughingly acknowledged the promise of a monkey, a pair of squirrels and a canary bird as starters for the collection but thought the question of a zoological garden would be one of future development,

saying one thing at a time was enough.

Mayor McCallin yesterday signed the
resolutions of Councils accepting Schenley
Park and the 100-acre option from Mrs.

OVERRUN WITH MICE.

Allegheny Postoffice Clerks Think it Time to Move Out.

The employes of the Allegheny postoffice department are anxious that there quarters be changed to a new building for more reasons than that of a larger space. Aside from the fact that they are crowded and becoming more so every day, they are at present, for some cause or other, being overrun with mice. At night time, when there are but a few clerks on duty, the little pests take possession of the place, and trisk and gambol about over the tables and through the mail packages to their heart's content. Only a change of building will remedy the matter, as a change of administration does not apply to mice.

FIREMAN GOOD DEAD.

He Did Not Recover Consciousness After the Accident.

Fireman John Good, who was so seriously injured in the wreck of No. 13 at Beasemer Sunday night, died yesterday morning at the West Penn Hospital. He was but a short time married to a Lawrenceville lady, The funeral will be in charge of General Putnam Council No. 125, Jr. O. U. A. M., of which he was a member. An inquest will be held this morning.

A Timely Suggestion.

The senior proprietor of this paper has been subject to frequent colds for some years, which were sure to lay him up if not doc tored at once. He finds that Chamberlain's Cough Remedy is reliable. It opens the secretions, relieves the lungs, and restores the system to a healthy condition. If freely used, as soon as the cold has been contracted, and before it has become settled in the system, it greatly lessens the attack, and often cures in a single day what would otherwise have been a severe cold.—Northwestern Hotel Reporter, Des Moines, Ia. Fifty-cent bottles for sale by E. G. Stuckey, Seven-teenth and Twenty-fourth streets, Penn ave-nue and corner Wylie avenue and Fulton nue and corner wyne avenue and Futton street; by Markell Bros., corner Peun and Frankston avenues: by Theo.
